

ALLIANCE PERFORMANCE SHARING PROGRAM

Attendance

Here's Why

- Your presence means our patients and members get great care, anytime and anywhere, in the way they want it.
- If you can't get time off, calling in sick isn't the answer. Work with your unit-based team to review staffing levels and department backfill plans.
- If your department has high absenteeism, consider a root cause analysis to understand what's going on.
- Consider a UBT project to improve attendance. Check out the [Attendance Toolkit](#) on [LMPartnership.org](#).

How to Help
